

`_wrap_run`

`SWIG_Python_InitShadowInstance`

`SWIG_Python_UnpackTuple`

```
graph LR; A["_wrap_run"] --> C["SWIG_Python_UnpackTuple"]; B["SWIG_Python_InitShadowInstance"] --> C;
```

The diagram illustrates a relationship between three components. On the left, there are two separate boxes: the top one contains the text `_wrap_run` and the bottom one contains `SWIG_Python_InitShadowInstance`. On the right, there is a single, wider box containing the text `SWIG_Python_UnpackTuple`. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box, indicating that both `_wrap_run` and `SWIG_Python_InitShadowInstance` are associated with or point to `SWIG_Python_UnpackTuple`.
